

the first time, the new system was able to identify the most important features of the data and extract them automatically. This was a significant breakthrough, as it allowed us to analyze large amounts of data much faster and more accurately than ever before.

The new system also had a major impact on our business. It helped us to identify opportunities for growth and innovation, which led to several new products and services. Additionally, it improved our customer service by providing faster and more accurate responses to customer inquiries.

Overall, the implementation of the AI system was a success. It has revolutionized the way we work and has brought us closer to achieving our goals. We are excited about the future and the possibilities that lie ahead.

6. The professional recommendations of the Superintendent/Principal will be developed by the CDOC who will consider priorities of the board and what is best for the students. *PDCs will be developed by the CDOC*
