

The District will allow an individual with a disability to use a miniature horse as a service animal in District facilities, ~~campuses, and programs and on District campuses~~ if the miniature horse has been

for registration and record collection, prior to the start of classes, programs, and activities. Following registration through DSPS, students will be provided access to a District certificate for the service animal, which includes a photo ID, to be attached to the collar/harness of the service animal, that must be visible at all times on the animal, while present or participating in District facilities, campuses, and programs, to ensure campus members and constituents recognize it is a working service animal. Service animals without having proper vaccination and licensure records on file, may be excluded from District facilities, campuses, and programs.

The District may make inquiries to determine whether an animal qualifies as a service animal and should be permitted on campus, facilities and/or programs including but not limited to:

- Whether the animal is required because of a disability;
- Whether the animal has received required vaccinations and licensure,
- What work or task the animal has been trained to perform.

Campus members who identify a student with an animal on campus without a visible District photo ID reflecting the animal is a service animal, may refer the student to DSPS, as DSPS is the representative department responsible for making disability related inquiries, as well as collecting licensure and vaccination records. The District will not make either of these inquiries when it is readily apparent that an animal is trained to do work or perform tasks for an individual with a disability (e.g., the dog is observed guiding an individual who is blind or has low vision, pulling a person's wheelchair, or providing assistance with stability or balance to an individual with an observable mobility disability).

An individual may choose to produce a county service dog license or identification tag, but licensure or certification is not required in order to meet the definition of service animal under this procedure. There are no licensing or certification requirements for miniature horses.

The District may request proof of immunization, pursuant to state law (Health and Safety Code § 121690), requiring that all service animals be immunized.

---

A student with a disability who intends to bring a service animal to class is encouraged to register the animal with the DSP&S Office or with the ADA Compliance Officer in order to record their animal's
