

Student Success Goals

Adopted by the Governing Board for 2019-2024

Goal 1: Increase Student Completion

The completion agenda is a national priority for institutions of higher education and particularly critical for community colleges. The state of California has the highest rate of students who do not complete their education, and the state's economic future depends on the success of its workforce. The College has a goal to increase the number of students who complete their education, and to ensure that the completion rate is high enough to make a positive impact on the state's economy.

Goal 2: Increase Student Completion Efficiency

For those students who complete their education at a community college, the amount of time they take to complete their education is a key factor in their success. The state of California has the highest rate of students who do not complete their education, and the state's economic future depends on the success of its workforce. The College has a goal to increase the number of students who complete their education, and to ensure that the completion rate is high enough to make a positive impact on the state's economy.

Goal 3: Increase Student Transfer to Four-Year Institutions

The state of California has the highest rate of students who do not complete their education, and the state's economic future depends on the success of its workforce. The College has a goal to increase the number of students who complete their education, and to ensure that the completion rate is high enough to make a positive impact on the state's economy.
