**Equity Considerations in Area 3:**

- How do the institution support advisors to incorporate engaging, proactive, and culturally relevant advising practices to better support underrepresented students' success in their programs?
- How does the college ensure that underrepresented students are not disproportionately directed away from competitive, limited access programs?
- How does the college integrate academic and student support services into pathways so that the support is unavoidable and therefore less stigmatized?
- How does the college ensure that low-income students' financial stability needs (e.g., nutrition, transportation, childcare, public benefits, emergency assistance) are being met so they can make progress toward program completion?

**3. KEEPING STUDENTS ON PATH**

a. Advisors monitor which program every student is in and how far along the student is toward completing the program requirements.

*Progress to date:*

An evaluation team reviews student progress when they petition for graduation, which is typically the semester they plan on graduating or the semester before planned graduation.

Advisors do this in programs with cohorts like Nursing, CSin3, and Teacher Pathways.

Term, if *at scale* or *scaling*.

*Next steps:*

2019-2020 Enrollment services plans to expand the number of employees on the evaluation team and/or to allow more uninterrupted, dedicated time to this task.

The Completing Students Team will design and gain approval for a system of coordinated resources to operationalize support strategies including completion and transfer workshops, emotional supports, drop-in counseling and financial literacy, etc.
