Our Intervention:

MARTINI COLLEGE

A 2013 report published by the American Association of University Women (AAUW) found that 74% of parents at the community college have been most dramatically affected by the decline of childcare from 53 percent in 2004, to 46 percent in 2013, with less than half of all two-year campuses offering campus child care services (Gault, Reichlin, Reynolds, & Froehner, 2014b).

Four focus groups with 13 students parents (summer 2017, 2018)

In-depth qualitative interviews
