Serve members in our district area:

- Inmates are a part of our community when they reside in a local institution and when they are released

Reduce Recidivism:

- More than 95 percent of prisoners return home but more than 60 percent are rearrested within 2 years
- Inmates who participated in college courses have a significantly lower recidivism rate

Source: Institutional Effectiveness Partnership Initiative. (2018). *LEADING THE NATION: Building Excellence for California's Incarcerated and Formerly Incarcerated College Students.* Irvine, CA

Additional Benefits to Inmates/Community:

- Changes the student's trajectory as well as his/her family's by creating a college-going culture
- Reduces violence in facilities
- Inmates are more likely to find employment upon release
- Critical when the state estimates a 1.1 million gap in workers with a bachelor's degree by 2030
