## College Redesign/Guided Pathways: Dr. Hetty Yelland

Good overview!

I would like more detailed info on the various teams. Julian was a welcome guest speaker!

Good pace – accessible to faculty unfamiliar to college redesign.

Thanks for excellent overview!

Good overview and presentation. Not much details of what's going on with each group.

Interesting talks. I liked the guest speaker from Bakersfield **Salazar**

Great presenter!

Kept it interactive and engaging.

Very relevant for our campus. I look forward to her returning.

If some slides/points are particularly strong it will be self evident, so there is no need for the "like" button/"cat" button. Otherwise, good presentation.

Wonderful scholar in residence!

Good information but not really new information.

I liked the interactive component of her talk.

Love the mentimeter addition.

Use of mentimeter was fun! Good statistics and information.

## Breakout Session #1: Questions and Answer Session, Dr. Melissa Salazar

Not as good as her first presentation as we spent most of the time on what doing the training would look like and did not really get to our other questions.

It is nice to have the opportunity to see the Key note speaker in a smaller group.

Interesting case studies w/ great tips.

Not really about HIS. More about training and Escala. Interesting if planning to attend training.

Very interesting Q&A. I would be interested in possibly attending the institute.

Would like more strategies that work.

Being a new instructor, I would someday attend the workshop.

**Breakout Session #1: Building Inclusive Online Environments, Liezl Madrona, CA CC Accessibility Center**

It was very basic, hoped it was more hands on.

I loved this one. It was very practical.

excellent update of current policy and relevant current affairs of state

Great slides really explaining how the screen reader works and why we need to have our material be formatted well.

Good presentation. Need to explore further.

Great information but I think more examples would benefit the presentation.

Liezl presented her material in a very understandable manner. The material was very relevant.

Liezl was a great speaker.

**Breakout Session #1: Supporting Foster Youth, Margaret Wiebusch, Savannah Lewis, and Augustine Nevarez**

Please provide a statement to add syllabi for the faculty about Guardian Scholars Program

**Breakout Session #2: Your Role in Emergency Preparedness, Lindsey Bertomen and Kenneth Laird**

Did not have enough time and I don't think the tactics taught are the best course of action. Untrained instructors are not going to be as calm as the instructors were here. Combat Vet

Everyone one needs this training every year. Less then a hour is not enough time. It needs to be 2 4 hours

**Breakout Session #2: Teaching Strategies that Maximize Student Learning**

### **Breakout Session #2: AB 705 Impact, Dr. Mohammed Yahdi and Dr. Peter Gray**

Quite dramatic and fun!

Mo is a great presenter who handles a group well with his dynamic style. From comments in the room: Is the original data on accelerating placement from certain colleges? Many non math and non English faculty seem concerned.

Not that clear how it applied to AB 705.

### **Breakout Session #3: AB 705: A Case Study Approach**

Gave more clarity through engagement!

### **Breakout Session #3: Veterans in the Classroom, Gemma Uribe**

The best speakers. Everyone needs to be at this training

The Veteran's in the Classroom presentation was my favorite. Very informative!

Great perspective from 3 perspectives (support, faculty, student). Really powerful stories.

Loved the student rep who shows and talked about vet experience as a student. We must show empathy.

Really good information. I especially enjoyed hearing

Somewhat confusing. Maybe handout could help. Otherwise, good presentation.

David did a good presentation of material that is traditionally

#### **Breakout Session #4: CPR Training and AEDs, Lindsey Bertomen and Matt McElhenie**

I now want to take a CPR course:)

Everyone should be cpr cert. every year. Maybe do a 8 hour certification class as one of the days of In service. It would be so much more helpful to me and my students

bitter sweet but necessary training, this is in light of the fact that I had several heart attacks over the summer.

Great refresher.

Matt is an outstanding presenter. His clarity and demonstration skills are terrific.

#### **Breakout Session #4: Trips and Tricks for Regular and Effective Contact Online, Laura Otero**

Great presentation, but we need more computers

More advanced information would be helpful

I rally hoped we had more time, even have a more advance Canvas training

This was great because it was a practical session. There were just not enough spaces in the room.

Handouts were great I think we needed more time. Too much time was utilized signing in for the event. \_ Which delayed the start.

Very helpful! Always good to get more learning about Canvas.

Laura is always clear, helpful, and patient.

Needed a bigger room or have people bring their own laptops.

Great information.

#### **Breakout Session #5: Canvas Tricks, Nancy Wheat**

It wasn't extremely useful since I don't use the pages feature very often in my courses.

Need to know more ways to change content on Canvas. Appreciate what I saw, now it is time to try it out

Not enough computers so half of the people there could not be part of it. Not helpful

There was not enough space in the room. Had to stand in the back.

Need bigger computer lab...more time for hands on practice and checking for understanding even if less "tricks" are presented.

Need many more stations! All computers in main room were taken

We need a bigger classroom next time, we had to stand up on the back

This was great because it was a practical application, but it was very crowded.

Helpful ideas for Canvas. Needed more computers for those who came. Nice job to Nancy.

Excellent compilation of resources for online teaching!

Wonderful! Please offer faculty training.

Good presentation. I learned some things I didn't know previously.

Way overcrowded in the classroom.

Very useful information.

**Breakout Session #5: New World of Work, Liz Cabiles**

I attended the 2 day workshop at Cabrillo last year. We need this on our campus.

I'd like to take this 2 day training program.

**Breakout Session #5: Creative and Critical Thinking : Aesthetics, Cheryl O'Donnell**

Very fun. Super exciting and fresh.

I'd love to take this class. Will definitely recommend to my students.

Well thought out presentation. I am very impressed by the inclusion of many disciplines.
